# Digital Advantages

The IC-F29DR is available with 16 digital channels and utilises 6.25 kHz narrow channel spacing. Even in urban areas where analogue PMR446 users often experience channel congestion, digital channels offer less interference. Therefore, it is so suitable for professional use.

Pan-European Licence-Free Communication

Digital **16ch** + Analogue **8ch**
LICENCE-FREE

The IC-F29DR meets pan-European digital and analogue licence-free standards. The IC-F29DR is ideal for organisations and businesses where the workplace is constantly changing such as construction sites and events.

Digital and Analogue Dual Mode
The IC-F29DR can be used in both digital and analogue mode at the same time and can scan both zones at once. This allows an organisation to operate both digital and analogue radios in their fleets.

IP67 Waterproof and Dust-tight
The IC-F29DR can withstand 1m depth of water for 30 minutes. This rugged construction provides dust-tight protection making it suitable for outdoor use.

Outstanding Audio Quality
800mW audio output is provided from the large 36mm speaker. The IC-F29DR can deliver loud and intelligible audio even in noisy environments.

Group Call Communication
Similar to analogue CTCSS and DTCS codes, the digital Common ID also can be used for a group call. These codes and ID can be programmed to the 16 position rotary selector for instant call capability.

VOX for Hands-free Operation
With either optional headset* HS-94LWP or HS-95LWP, built-in VOX function provides convenient hands-free operation.* HS-94 and HS-95 also can be used with OPC-2004LA.

Voice Announcement Function
When you rotate the rotary selector, the radio announces the selected channel number. The radio also announces the zone number and mode when the zone button is pushed.

12 types of Ring Tone
The Call-Ring function allows you to call your group members with 12 types of ring tone. When you pre-arrange any ring tone for an emergency, the ring tone can be used for an emergency alert.

Other Features
·26 hours operating time ·Channel Set Mode ·Power ON scan ·Tone scan (analogue) ·Nuisance delete ·Answer back call (analogue) ·LED light indicator ·Status Call (RX only) ·PC programmable ·AMBE+2™ dPMR standard vocoder
